**2,387,288 Tons Coal Mined in County During 1955**

COAL: Did you know that a total of 190,827,506 tons of coal have been taken from below the coal seams in Saline county since mining was started here?

Did you know that in 1955 Saline county mines sold 36,515 tons of coal to railroads and shipped 2,337,589 more tons by rail to markets?

These and other facts I found in a new book.

I have received the Illinois Coal Report for production in 1955, which has the facts and figures on Saline county for the year 1955 as well as for other counties in the state.

It's interesting reading, in spite of the fact that most of it is tables of figures. Here are some of the things I picked out of the comprehensive book:

In Saline county there were five shipping mines—three shaft and two stripping operations. The shaft mines are slopes.

Shipping mines were the Sahara 6 strip and Sahara 5 and 16 slopes, Peabody 43 slope and Saxton's New Castle No. 2 slope.

Slope mines worked 136,005 man days and mined 1,638,400 tons of coal. Strip mines worked 45,074 man days and mined 748,888 tons.

Production figures for the five shipping mines were:

Sahara 6—603,573 tons; Sahara 5—491,894 tons; Sahara 16—478,542 tons; Peabody 43—667,693 tons; and Saxton—145,315 tons.

That makes a total of 2,387,288 tons of coal mined from our Saline county shipping mines during 1955 and added to this was 67,245 tons from the local mines, which

### Sturgis, Ky., Area Speculating About Land Deal

People between Sturgis, Ky., and the Ohio river are buzzing with speculation about a whirlwind land deal in which an undisclosed principal has taken option on more than 2,000 acres of farms near the junction of the Ohio and Tradewater rivers, a story out of Sturgis in the Evansville Sunday Courier-Press revealed.

The area described is not many miles from the Saline county area. Here is what the story said in part:

"No hint was given of the true use to which the land will be put if the options are exercised, nor to the identity of the organization involved.

"Rumors flew that the land, all of it in one block adjacent to the two rivers in the southwest corner of Crittenden County, was being considered for:

"1. A steel mill site.  
"2. An atomic energy plant.  
"3. A Du Pont project.  
"4. Speculation purposes only.

"The only tangible things to come out of the deal are fistfuls of 20-dollar bills which the agents scattered among eight or ten farm families for the options.

They paid \$5 an acre for one-year options, buy the land at undisclosed prices. The options are renewable for another year by the prospective purchasers for another \$5 an acre.

No one seems to know anything about any of the men who came here. Their number was estimated variously from six to ten. They worked in pairs, and carried large amounts of cash in their pockets.

"The money did not come from a local bank. Most of it was in 20-dollar bills."

## Forestry Official Speaks to Area Recreation Ass'n

Shawnee Hills Group Holds October Meeting at Eldorado

The Shawnee Hills Recreation association, a group devoted to publicizing the scenic and historic spots of southeastern Illinois in an effort to get tourists moving into the area, last night held its October meeting in the St. Mary's school basement in Eldorado with the following developments:

1. H. V. Svensen, assistant forester in charge of recreation in the Milwaukee regional office of the U. S. Forest Service, said plans are in the making to build a few camping sites at Lake Glendale in Pope county, that the first efforts in the Shawnee National Forest must be to develop public use areas like Lake Glendale and Pounds Hollow.

2. Geoffrey Hughes, executive director of Southern Illinois Incorporated, offered the fullest possible co-operation of the SII to the Shawnee Hills group, and declared the SII soon will come out with a map of the Trig Memorial Skyline drive showing the points of interest near it.

Time to Work Out Details

3. A look at colored movies and slides shown by William Farley at Harrisburg brought exclamations of surprise at the beauty and splendor of this area even from the southern Illinoisans who are promoting the scenic beauties.

4. State Senator Glen O. Jones stated that the fall and winter months are the time to get the details worked out so that the group will not be lagging when the time for visitors arrives next spring and summer. He urged getting busy on a financial program, with major oil companies and others who have a definite interest in motor travel into the area being solicited.

5. Treasurers of the Saline, Galatin, Hardin, Johnson, Massac and Pope county organizations within the six-county group were given membership cards to sell. Seventy-five per cent of the funds collected in this manner will stay within the county and 25 per cent will go to the treasury of the Shawnee Hills Recreation association.

Demand for Public Use Areas  
Forester Svensen, who was introduced to the two-score present from all six counties by Cong. Kenneth Gray of West Frankfort, discussed recreation policies and problems in the U. S. forests.

He told of the continued rising

### Father of Sheriff Barrett Undergoes Amputation of Leg

William Barrett, Eldorado, father of Sheriff William T. Barrett, had his left leg amputated above the knee yesterday at Ferrell hospital in Eldorado. Amputation was necessary due to hardening of the arteries, Sheriff Barrett said today.

## Farmers Over Hump, Bright Future: Ike

President Says Prices Have Started Back Up

MINNEAPOLIS (AP)—President Eisenhower said today farmers "are over the hump" and have a bright future.

He also slapped back at charges by Democratic presidential candidate Adlai E. Stevenson and other top Democrats that the Eisenhower administration is against the little farmer and has made little progress toward world peace.

He called them "anguished politicians, no doubt overly excited by the din of a campaign."

"From what I've read of their statements I am sure that if some of these men drove a tractor like they talk—they would have a mighty tough time plowing a straight furrow," Mr. Eisenhower said here.

"It certainly is not straight talk to say that our farmers would be better off to return to programs that caused surpluses to pile up and prices to go down."

He gave what he called "plain proof" that his farm program, based on flexible price supports, works. He said "the whole farm economy was seriously threatened" when he took office. But now, he said, "farm prices have started back up without the economic help of war" for the first time since World War II.

"The biggest cleanup job left us to keep up our attack on surpluses until both overproduction and the excess stocks on hand have become just a memory," Mr. Eisenhower said.

"I believe that, by any objective yardstick, the future today in agriculture looks better—more promising and more dependable—than at any time in this generation."

Mr. Eisenhower stopped in this key farm state for his first campaigning on a five-day swing by plane. He also will speak in Washington, Oregon, California and Colorado—where there are crucial Senate contests—before returning to the White House Saturday night.

The independent newspaper supported Mr. Eisenhower in 1952. Its 1956 endorsement appeared in an editorial in today's editions.

It commended both the President and Adlai Stevenson for sharing a middle of the road position and having in common "a distrust of extremist positions and a clearly demonstrated faith in both the philosophy and method of moderation."

The newspaper said the selection of Nixon was one of the things which have not gone the way it wished they might have gone, but it said Nixon had worked hard and has grown with his job.

The editorial said it continued to hold the opinion that Stevenson was the strongest candidate the Democratic Party could nominate for the presidency. But it said it sharply disagreed with Stevenson's statement that selective service might be ended "in the not far distant future."

George Hart post of The American Legion will sponsor the annual Harrisburg Halloween celebration this year as it has done in the past. Post Commander Willard Fulkerson announced today. It will be held Wednesday, Oct. 31, starting at 7 p. m.

The Legion sponsors these events in an effort to keep young people uptown instead of roaming around through the residential areas on Halloween.

There will be entertainment and numerous prizes will be given for costumes. A committee from the Legion post will soon be soliciting merchants for prizes.

### Day-Old Baby Girl Found in Shopping Bag Dumped in Alley

CHICAGO (AP)—A day-old baby girl was in "good condition" today at the Illinois Masonic Hospital after being found in a shopping bag dumped between two garbage cans in a north side alley.

The baby was found Monday by Mrs. Joseph F. Doddin in the alley behind her home. Doctors said the infant was about six hours old when brought to the hospital by police.

Mrs. Doddin said the baby was swaddled in two women's blouses. She was found in a shopping bag bearing the name of the F and N Foods Store, about four blocks from the alley, police said.

## New York Times Endorses Ike, Criticizes Nixon

NEW YORK (AP)—The New York Times today endorsed President Eisenhower for reelection but criticized the GOP choice of Vice President Richard M. Nixon as his running mate.

The independent newspaper supported Mr. Eisenhower in 1952. Its 1956 endorsement appeared in an editorial in today's editions.

It commended both the President and Adlai Stevenson for sharing a middle of the road position and having in common "a distrust of extremist positions and a clearly demonstrated faith in both the philosophy and method of moderation."

The newspaper said the selection of Nixon was one of the things which have not gone the way it wished they might have gone, but it said Nixon had worked hard and has grown with his job.

The editorial said it continued to hold the opinion that Stevenson was the strongest candidate the Democratic Party could nominate for the presidency. But it said it sharply disagreed with Stevenson's statement that selective service might be ended "in the not far distant future."

### Austin to Speak at Democratic Rally Thursday Night at Court House

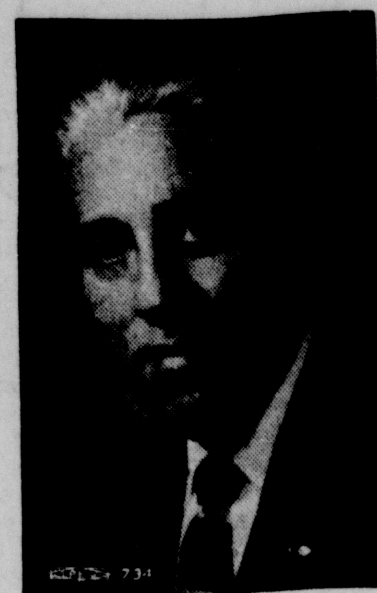

The biggest indoor rally by the Democrats in the present political campaign is scheduled to be held Thursday, Oct. 18, at the court house in Harrisburg. The rally will start at 7:30, Steve Mitchell, chairman of the Democratic Saline County committee, has announced.

Heading the list of speakers will be Richard B. Austin, nominee for governor. Other candidates for statewide offices to be present for the rally are Arthur L. Hellyer, nominee for state treasurer, and James L. O'Keefe, nominee for attorney general.

District and county candidates and officials will also be present.

Mr. Austin, a superior court judge in Chicago when he accepted the nomination for governor on the Democratic ticket, will make three appearances during his stay in Harrisburg.

In addition to making the major address at the rally in the court house, Austin will speak over

Richard B. Austin

WSIL-TV from 7:45 to 8 p. m., and will also talk at a fund raising dinner to be held at the Harrisburg Township high school cafeteria at 6 p. m.

## Stevenson Pledges if Elected To Confer on Halting H-Tests

Says He Would Undertake Personal Top Level Talks

CHICAGO (AP)—Adlai E. Stevenson pledged Monday night to go any place and confer at any level to halt H-bomb tests if he is elected president.

The pledge, made in a nationwide radio and television address, immediately recalled President Eisenhower's dramatic announcement in 1952 that he, if elected, would go to Korea to seek some method of ending the then stalemated Korean war.

Stevenson said he would undertake personal negotiation of an agreement with the Soviet Union, Great Britain and other atomic powers to halt H-bomb tests immediately.

"I would do this by conference

and consultation—at whatever level—in whatever place—the circumstances might suggest would be most fruitful," he said.

Back Proposal

The Stevenson proposal was backed up immediately and on the same television program by Sen. Clinton P. Anderson (D-NM), chairman of the joint Congressional Atomic Energy Committee, and Sen. Stuart Symington (D-Mo.) former Air Force secretary and now chairman of the Senate subcommittee on Air Power.

Both Anderson and Symington agreed firmly with Stevenson that halting H-bomb tests would not endanger national defense; that the Eisenhower administration had "distorted" the plan and some immediate steps were necessary to halt the dangerous spread of radioactive fallout around the world.

Stevenson leaves tonight for a four day train and campaign tour. He was expected to deal again with his proposal plan during his stump tour through sections of Michigan, Ohio, Kentucky and Indiana. His whistle-stop train schedule Wednesday will take him to at least six Michigan towns—Niles, Kalamazoo, Battle Creek, Lansing, Saginaw and Flint. His schedule called for at least 15 talks.

Stevenson's willingness to go any place and confer on any level necessary to reach an agreement to halt the bomb tests was prefaced for months by Mr. Eisenhower's publicly professing his own willingness to go anywhere at any time for international conferences if he believed they would contribute to real world peace.

### Register Receives Illinois Press Association Award

The Harrisburg Daily Register has received a Certificate of Award in the Illinois Press Association's 1956 Illinois Newspaper contest by getting a fourth place, or honorable mention, in the Best News Story Division for daily papers.

The story, which appeared in the February 29, 1956, issue of The Daily Register, told of the valuation decrease in Harrisburg township and the effect valuation decreases had had on the Harrisburg Township high school district.

"This was a difficult story to write since it involved complicated figures," the comment of the judges said. "It was handled intelligently and clearly, however, and certainly deserves mention in this contest."

A total of 123 newspapers in Illinois had entries in the contest.

### Farm Bureau County Policy Development Meeting Thursday

A county policy development meeting will be held at 7:30 Thursday night at the Saline County Farm Bureau building and all members of the Farm Bureau are invited to attend and participate in the discussion to help form a policy for the organization.

Issues to be discussed include: Philosophy of Government, the Agricultural Act of 1956, Local Government, State Rights, Agricultural Development and Promotion. Other issues desired discussed by those present also will be brought up.

Refreshments will be served following the discussion.

The meeting was called by C. Ersel Vinyard, president of the Saline County Farm Bureau.

### Former Oklahoma Governor, Alfalfa Bill Murray, Dies

OKLAHOMA CITY (AP)—Former Oklahoma Gov. William H. (Alfalfa Bill) Murray, 86, a flamboyant politician of the old frontier school, died late Monday. He had suffered a stroke six days earlier.

Murray made his first race for governor in 1910. He was ultimately elected in 1930.

Observers said he combined the wit of a scholar with his rustic color. He made an unsuccessful bid for the Democratic presidential nomination in 1932.

Later he opposed President Roosevelt's New Deal and campaigned for Republican Alf Landon in 1936.

## Dulles Grave at Rising Tension In Middle East

WASHINGTON (AP)—Secretary of State John Foster Dulles said today the United States stands behind its pledges to help any nation which might be the victim of aggression in the Middle East.

Dulles took a grave view, at his news conference, of rising tension in the Middle East.

He said Israel's reprisal raids against Jordan, for example, indicate a deterioration of that situation and failure of U. N. efforts earlier this year to ease the tensions.

Dulles was asked about President Eisenhower's April 9 declaration by which the United States would help a victim of aggression if big trouble broke in that area. The reporter asked if the United States still stands ready to help.

"Yes, that still holds," Dulles said.

He said the United States would assist if there were aggression, but he did not say how this would be done.

He sounded a more optimistic note about the Suez Canal crisis.

In a formal statement, Dulles said there has been "progress toward achieving a just and peaceful solution of the Suez crisis."

This echoed recent optimistic statements on Suez by both Mr. Eisenhower and Dulles.

Dulles said the U. N. Security Council had adopted "sound principles."

"There are many difficulties still in the way," Dulles said. "No one can say with certainty that there will be a peaceful solution in accordance with the principles of justice and international law. Nevertheless each difficulty overcome means one less difficulty remaining to be overcome, and we can thus take satisfaction from what occurred last week at the United Nations."

## Nickell Reports Schools Will Need Substantial Aid Increase

SPRINGFIELD (AP)—State Supt. of Public Instruction, Vernon Nickell, served notice today that Illinois schools are going to need a "substantial increase" in state appropriations for the next two years.

In his biennial report to Gov. William G. Stratton, Nickell also said the classroom shortage is the most serious problem facing Illinois schools and that "undoubtedly a deficiency appropriation" will have to be made by the next Legislature to pay state costs for bus transportation of school children.

Nickell said "increased enrollments" would make necessary a "substantial increase" in the present 201-million-dollar common school fund appropriation.

The 1955 Legislature increased the common school appropriation to \$201,076,850 to meet the added cost of an increase in the state formula for equalization aid to schools. The formula was increased from \$172 per pupil per year to \$200 per pupil per year.

Transportation Costs Up  
Nickell said use of bus transportation was increasing because of further consolidation of school

## Plane Lands Alongside Weather Ship

Ditching Follows Four Hours of Circling Cutter

SAN FRANCISCO (AP)—A distressed Pan American Airways Stratoclipper ditched in the Pacific Ocean 1,045 miles southwest of here at 8:16 a. m. PST, today but all 31 persons aboard were rescued in "good condition."

Twenty-one minutes after the big four-engined Boeing Stratoclipper hit the water and broke in two, the U. S. Coast Guard weather cutter Pontchartrain radioed:

"All 31 persons taken aboard. All in good condition."

The plane, under the spit-second control of Capt. Richard Ogg, came down in 3-to-4 foot swells alongside of the cutter, serving as the weather station "November" which is stationed permanently in the area.

The ship's crew of 135, trained in air-sea rescues, had four boats over the side by the time the plane, which was forced to ditch after losing two engines, hit the water.

The plane remained afloat long enough for the crew to launch two life-rafts and to transfer the 24 passengers of the mixed tourist-first class flight to the lifeboats.

Five minutes after the last passenger and crew member left the split plane, a Transocean Airlines plane over the scene reported that the front section of the broken ship had sunk.

The ditching came after Ogg had circled above the Pontchartrain for more than four hours dumping gasoline and awaiting "more favorable" ditching conditions.

At 8:21 a. m. came a curt message from the cutter: "Plane ditched. Roke in half on contact. Four rafts in water. Many survivors apparent. We have two boats in water. Every effort being made to rescue."

The cutter amplified the message with a second two minutes later, saying that the plane's tail assembly had broken from the rest of the ship and was floating away.

The Stratoclipper with an extremely light, early-week, mixed tourist-first class passenger load originally had planned to ditch at 7:15 a. m. PST. But after several dry runs Ogg made a last second postponement for "calmer" seas.

First word of the distressed plane came with a terse radio message dispatched by Ogg at 4:23 a. m., when he radioed: "Dumping fuel. Will definitely ditch."

Messages Tell Drama

At 5:03, the Coast Guard said: "Aircraft will definitely have to ditch. They are still orbiting over the weather ship but will not be able to make San Francisco or Honolulu with fuel remaining."

At 5:50, the Coast Guard said: "Still has No. 1 engine. Engine windmilling in a runaway condition. He is still keeping his air speed at 140. Unable to feather or freeze No. 1."

Shortly before 7 a. m. Pan American reported the plane had made "two dry runs at a forced landing."

A Pan American spokesman said the distressed plane was its Flight 6 which left Tokyo on Monday for Honolulu and San Francisco. It departed Honolulu at 9:30 p. m. HST Monday (1:30 a. m. CST today), and was due in San Francisco this morning.

The plane carried 24 passengers—15 men, 6 women and 3 children—and a crew of 7.

#### Stevenson's Holdings May Have Hit Million Mark

By PETER EDSON

WASHINGTON —(NEA)— Both  
Dwight D. Eisenhower and Adlai  
E. Stevenson can be rated as mil-  
lionaire, or at least near-million-  
aire, candidates for president this  
year.

In their 1952 campaign, these  
same two opponents listed their  
earnings over the previous 10  
years. Both listed capital assets  
then estimated to be worth half  
a million dollars or more.

Assuming their investments have  
realized the capital gains and in-  
creases of value of stock averages  
over the past four years, the two  
candidates could easily be worth  
a million apiece today.

The 1952 publicity on the candi-  
dates' financial position ended the  
controversy about this issue at the  
time. But now it is being revived.  
Four times during the 1956 cam-  
paign Republican orators have cal-  
led Stevenson "the millionaire can-  
didate." Some add, "with a hole  
in his shoe."

No less an Eisenhower adminis-  
tration official than Postmaster  
General Arthur E. Summerfield  
made the accusation that "Stevenson  
trades in Wall Street, yet says  
he is for the little man."

FOUR YEARS AGO Stevenson  
listed some 25 companies in which  
he held common stock. He also  
listed a few preferreds and govern-  
ment bond issues. His income  
tax returns showed an average an-  
nual income from dividends of  
\$35,000 before taxes. He had \$28,  
000 after taxes.

It has recently been revealed  
by Stevenson's sons in a Collier's  
magazine article, however, that  
"Most of Dad's income is from his  
one-quarter share of the Bloom-  
ington, Ill., Daily Pantagraph, the  
newspaper which his mother's fam-  
ily founded, and from his law prac-  
tice, when he has time to practice.  
But his expenses of keeping up the  
house and the farm, putting us  
through college, and his personal  
costs of campaigning are high."

This important disclosure is taken  
to mean that if most of Steven-  
son's income is from his newspaper  
holding, that's where most of his  
capital is. No facts are available  
on the newspaper's capital worth  
or its earnings or dividend rates.

In his Wall Street holdings, if  
Stevenson has done as well as the  
Dow Jones or New York Times  
composite stock averages, he could  
be worth about 70 per cent more  
today than he was four years ago.  
Investor Stevenson could have done  
better and he might have done  
worse.

ASSUMING THAT he now holds  
the same stocks that he listed in  
1952—which is highly unlikely—  
some of his investments would  
show handsome profits through  
stock dividends and splits.

Aluminum Co. of America has  
shown a 554 per cent gain in the

four years. Dresser Industries 320  
per cent. Electric Boat, now a  
part of General Dynamics, 788 per  
cent. General Portland Cement,  
368 per cent. Hilton Hotels, 277  
per cent. Joy Mfg., 299 per cent.  
Phillips Petroleum, 157 per cent.  
Rotary Electric Steel, 198 per cent  
and Standard Oil of New Jersey,  
176 per cent.

Stevenson had some turkeys, too.  
His Admiral Corp. has shown a  
seven per cent drop since 1952.  
Burlington Mills, now Burlington  
Industries, is down 28 per cent.  
Industrial Rayon is down 30.

Early in 1953 Stevenson is known  
to have sold off some of his bad  
stock in the recession of that per-  
iod. He commented wryly at the  
time on what Republican prosper-  
ity was doing to him.

But the market, recovered, of  
course, and went on to new highs.  
The average price of the stocks  
listed by Stevenson in 1952 was  
\$37.21 per share. The average  
price as of Sept. 17, 1956, was  
\$74.08—almost exactly double.

IF STEVENSON'S \$35,000 aver-  
age annual income from dividends  
represented six per cent average  
earnings, his invested capital can  
be estimated at \$572,000. If this  
has increased in value 70 per cent  
it is \$972,000 today. If he has dou-  
bled his investment, he is over  
the million mark.

Stevenson's other sources of in-  
come have been more modest. His  
salary as governor was \$12,000 a  
year. As a war-time government  
official, he was in the \$10,000  
bracket.

From 1942 through 1951, Steven-  
son's law practice earned only \$1-  
100 a year on the average. He  
has paid more attention to his law  
business since 1952. But even so,  
a good bit of his time has gone to  
political campaigning, much of it  
at his own expense.

## Asthma Formula Prescribed Most By Doctors—Available Now Without Prescription

**Stops Attacks in Minutes... Relief Lasts for Hours!**

New York, N. Y. (Special)—The asthma formula prescribed more than any other by doctors for their private patients is now available to asthma sufferers without prescription.

Medical tests proved this formula stops asthma attacks in minutes and gives hours of freedom from recurrence of painful asthma spasms.

This formula is so effective that it is the physicians' leading asthma prescription—so safe that now it can be sold without prescription—in tiny tablets called *Primatene*.

Primatene opens bronchial tubes, loosens mucous congestion, relieves taut nervous tension. All this without taking painful injections.

The secret is—Primatene combines 3 medicines (in full prescription strength) found most effective in combination for asthma distress. Each performs a special purpose.

So look forward to sleep at night and freedom from asthma spasms... get Primatene, at any drugstore. Only 98¢—money-back guarantee.

That distinctive difference you enjoy in Folger's is

# Mountain Grown Coffee!

With your first cup of Folger's, you'll discover the distinctively rich and unusually tangy flavor of nature's choicest coffee. For Folger's Coffee is a unique and individual blend of rare, naturally more flavorful Mountain-Grown coffees!

Specially selected from remote mountain regions where there is an abundance of fertile volcanic soil, warm tropic rain and year-round sunlight, these are the coffees with the rarest tang and most satisfying flavor of any coffee known today.

You will find the refreshingly different flavor and aroma of Mountain-Grown Folger's Coffee unlike any you have ever enjoyed. Distinctively rich. Unusually tangy. Unmistakably Folger's!

So much richer in flavor that you are urged to use 1/4 less than with lesser flavored brands.

## Air Force to Reduce Search

LONDON (U.P.)—The Air Force announced today the widest search for a missing American plane with 59 U. S. servicemen aboard would be reduced sharply at midnight. The announcement was a tacit admission that "hope for the men was gone."

The plane, a C-118 "Liftnaster" disappeared Wednesday on a flight from England to the Azores while taking the Air Force passengers back to the United States from a tour of duty in Europe. Since then scores of planes have searched thousands of square miles.

The Air Force said the general search would be halted at midnight and that from then on efforts would be limited to a "surveillance-type searching" off the 240-mile square area where a dinghy and aircraft wheels were picked up Monday by a British tanker.

Planes already had gone over the area looking for rafts and possibly survivors but found nothing. The future search will concentrate on looking for wreckage that might give some clue to the crash at sea of the big plane.

## About Town And Country

(Continued from Page One)

brought the 1935 total to 2,454,533 tons for the county.

The local mines and their outputs in tons:

Pioneer Mining Co., Equality, 11,299; Tarlton Coal Co., Eldorado, 282; Beecher Williams No. 1, Harrisburg, 3,426; Beecher Williams No. 2, 9,753; Millspaugh and Henshaw, Equality 55; Vinyard Coal No. 1, Equality, 40,647; Rexing and Rich Coal Co., Equality, 587; and Houston Coal Co., Carrier Mills, 1,202.

The Report revealed that the Millspaugh and Henshaw mine suspended operations in May of 1935, and also revealed that no Saline county mines were abandoned during the year.

Also in the Report were employment figures, which showed 851 men were employed in the five shipping mines—497 underground and 354 on the surface. The figures were broken down as follows: 164 at Sahara No. 6, 232 at Sahara No. 5, 212 at Sahara No. 16, 200 at Peabody 43 and 43 at Saxton.

There are several mines in Williamson county that are closely associated with Saline county, and I am running figures on some of them, too.

Here are the mines, the tonnage, and employment figures for 1935:

Blue Bird 7—31,790 tons, 61 men; Blue Bird 8—353,268 tons, 121 men; Carmac—296,791 tons, 57 men; Stonefort's Will Scarlett—787,679 tons, 104 men; Delta—886,585 tons, 86 men.

So much for production. Tomorrow we will run a story from the 1935 report on accidents.

### STOCKS DECLINE IRREGULARLY

NEW YORK (U.P.)—Stocks declined irregularly today on slightly increased volume.

Industrials were down 2.08 at 487.32 on average. A decline of nearly a point carried utilities down 0.29 point to 63.20. Rails showed a rise of 0.11 point in their average at noon at 161.17. The 65 stocks in the three averages dipped 0.54 to 172.45.

### REVIVAL IN PROGRESS

A revival is now in progress at the Church of God, 515 South Land, where Rev. C. G. Friedly is pastor. Evangelist is Bro. Joe Bertinetti of Eldorado.

Services begin at 7 p. m. and there is special singing each evening. Everyone invited.

## Human Interest in Register Classifieds

Do you ever read Daily Register classifieds purely for the human interest in them?

There was the man, whose hunting dog had puppies right here at the beginning of the season, who wanted to sell dog, gun, and puppies all for only \$15. Was he disgusted with that gyp?

There's the lady who has no further use for a baby grand piano, and the baby whose bed is incomplete because a part of it was lost in transit.

There's the big old 600 pound steer straying off the range, and the beginning of the fall shooting matches.

And the woman who wants to buy a coal range to take the chill out of breakfast on cold mornings.

## Galatia to Continue Pumping Water Into Reservoir

Pumping of water into the Galatia reservoir from Lake Galatia will continue for about three more days, Terry Fowler, superintendent of the Galatia water system, stated Monday.

Galatia's water supply is received in approximately the same manner as Harrisburg's. There is a standby reservoir near the city and a lake a considerable distance north where water is impounded.

When the supply in the reservoir gets low water is released from the lake and runs through an open ditch to the reservoir, where it is pumped into the reservoir.

Two pumps, one a six inch and the other a two inch, with capacity of 1,000 gallons per minute, were started last week and have been pumping constantly since.

The lake covers about 15 acres and was almost filled when pumping started. The 9-acre reservoir has been raised 14 inches, Mr. Fowler estimates.

Arthur Hill, president of the village board, stated today the lake had proved its worth as the reservoir was getting low and rationing of water probably would have been necessary if the large supply in the lake hadn't been available.

"We have plenty of water for all regular users and can supply all tank trade," it was declared.

## Plan Camping Sites At Lake Glendale

(Continued from Page One)

demand by the people for public use areas and of the shortage of funds within the Forest Service.

He said that his group encouraged picnicking and camping above all other types of recreation on forest lands and that what funds are available are spent largely to those ends.

As a part of this program, he said five or six camp sites would be set up at Lake Glendale. Svensen and L. P. Neff, Shawnee National Forest Supervisor, promised all the co-operation they could give to the effort.

Hughes of SII explained that the Skyline drive to be mapped runs across southern Illinois on the only east-west ridge of mountains in the country. The drive, which is a number of roads, all passable and some very good, runs from Grand Tower to near Cobden and Goreville, then eastward through the Ozark and Tunnel Hill areas, crossing Route 45 and going through Lamb in Hardin county to Battery Rock.

Other Maps

Besides this map, he said, SII will have table maps for restaurants, some showing "The Seven Natural Wonders of Southern Illinois," some "The Seven Cultural Wonders," some "The Seven Recreational Wonders," and others.

The Eldorado meeting was in charge of Pat Collins, who introduced John Brown, head of the Eldorado Art Center. Brown showed paintings and pottery made at the center and said that other arts and crafts would be set up in the future, to make costume jewelry, woven ware and other items.

He said that the center is setting up the Community Players, a permanent group to present two plays a year.

George Scherrer of Shawneetown, president of Shawnee Hills, presided. There were members present from Elizabethtown, Vienna, Golconda, Shawneetown, Goreville, Raleigh, Metropolis, Omaha, Ridgway, Eldorado and Harrisburg, and visitors from Carbondale and Cartermville.

Truck Smashes Into Bus; 17 Persons Hurt

CICERO, Ill. (U.P.)—Seventeen persons were injured Monday when a truck smashed into the rear of a bus near Sportsman's Park race track in suburban Cicero.

The bus was engulfed by flames while the passengers fled.

### New Postman Menace

TRENTON, N. J. (U.P.)—Mail carrier Joseph Jakubisin, his left leg swathed in bandages, returned to his rounds today with a sharp eye out for a new postman's menace.

Jakubisin successfully avoided all dogs on his route Saturday, but failed to dodge a bee. He was laid up the rest of the week end.

## Deposits Granted By Preference, Hoffman Says

CHICAGO (U.P.)—Elmer J. Hoffman, former state treasurer, told a U. S. Senate Banking Committee today that personal and political preferences sometimes governed his decision about allocating state fund deposits in various banks.

Hoffman testified before the committee, which is investigating whether federally insured banks contribute to both political parties in return for deposits of the low interest-paying funds.

Former State Auditor Orville E. Hodge, and Edward A. Hintz, former president of the Southmoor Trust and Savings Bank, both asked him for increased deposits in the Southmoor, Hoffman said.

"But I want to point out that at that time they were respectable citizens," he said in explaining why he increased the deposit of state funds in the Southmoor from \$750,000 to \$1,500,000 during the year ending in September, 1933.

Hodge now is serving a 12-15 year sentence for his million dollar raid on the state treasury, and Hintz a lesser term for his part in the scandal.

Robert A. Wallace, committee staff director, asked Hoffman who approached him before he increased

## Rites at Eddyville Wednesday for Accident Victim

Funeral services for Delbert Richard, Eddyville man who died in an auto accident Sunday on the Indiana toll road where he was working near Gary, Ind., will be Wednesday at 2 p. m. at the Eddyville Baptist church. Rev. Otto Kunath of Golconda will officiate and burial will be in Eddyville cemetery. The body lies in state at the Palmer and Aly funeral home in Eddyville.

ed the state funds on deposit in the Jefferson Trust and Savings Bank of Peoria from 1 1/2 to 2 million dollars. Hoffman said he thought the request came from the Republican county chairman—Joe Hodge or William Allen.

## Candidate Dies

SPRINGFIELD (U.P.)—H. Keith Dressendorfer, 47, Springfield, Democratic candidate for Sangamon county state's attorney, died Monday after a brief illness.

Dressendorfer had entered St. John's Hospital Oct. 10. County officials said it was too late to substitute another name on the ballot as Democratic candidate for state's attorney.

## On TV Show

The Daily Register 30c a week

## Former Vienna Man Killed in Accident

Larry Newton, 65, former resident of Vienna, was killed in a highway accident Friday morning in California.

The body is expected to arrive in Harrisburg Wednesday morning by way of the New York Central and will be taken to the Murrie funeral home in Vienna. Funeral plans are incomplete.

## Sentenced

Paul Whitehouse, Harrisburg, today was sentenced to six months in the county jail upon his plea of guilty to a charge of driving while intoxicated. Sentenced was pronounced by County Judge Trafton Dennis upon recommendation of State's Attorney Robert V. Wilson.

## SIU Alumni Ass'n Plans Activities

The Executive committee of the Saline county chapter of the Southern Illinois University Alumni association met Wednesday evening, Oct. 10. President Warren G. Jennings called the meeting to order in the office of C. R. Gardner, county superintendent of schools. Plans were discussed for various activities during the year and the next meeting date for the executive committee was set for Tuesday, Nov. 13, at 7 p. m. Those present at the meeting were Executive Board members C. R. Gardner and C. Wayne Craggs, President Warren G. Jennings, and S. I. U. Alumni Field Representative Jay King.

Plans were established for Saline county S. I. U. alumni to attend Southern Homecoming football game, Oct. 27, and to sit to-

gether in a block. Mr. King is making arrangements to secure seats together for all Saline county alumni who send in their reservations to the alumni office. Forms for making the homecoming game reservations will be received in the next few days by every S. I. U. alumnus and should be filled in and returned to Southern as promptly as possible.

Other activities discussed by the committee as tentative projects were: Membership drive to secure new members for the Alumni association; a dinner meeting to be established as an annual event; and the possibility of having recent S. I. U. graduates talk to the high school students of Saline county concerning the advantages and benefits derived from attending S. I. U.

## Thinking It Over

By Robert L. DiEffenbacher, D.D.  
(Written for NEA Service)

Although fall brings brilliant colors to the landscape there is something sad about the end of summer. The autumn air is clean. The fragrance of burning leaves is not unpleasant. The skies are blue. Many of the features of autumn are exhilarating.

In spite of these uplifting factors we still have moments when we feel "blue." The birds are leaving. Plants are dying. Animals are preparing for winter when food and shelter will be at a premium. Human beings also prepare for the barrenness of winter in their peculiar way.

They buy warmer clothing. They clean out the furnaces. They talk the windows. People prepare to be "snug" instead of feeling a part of the "wide open." Children are confined to the routine of school. Life is different.

We cannot entirely explain our

periods of despondency, except that we feel cramped, closed in and limited in our physical freedom. In the summer we have lived more in the temple of the out-of-doors which was created not by man, but by God. In the winter we are confined in man-made domiciles.

Man has created comfort and beauty which are very satisfying, but not as awe inspiring as the creations of the Supreme being. Many men can make a wall, a roof, a fireplace, or an electric light. Only God can make a tree, a mountain, a blue sky or a blade of grass.

In our moments of unhappiness we must learn to pray and look on the face of God in our own minds instead of in the openness of nature.

First tree farm in the United States was established in 1941. There are now 7,056 tree farms in the nation.

## Jack Morgan Joins Faculty of Galatia High School

Jack Morgan, native of Carbondale and graduate of Southern Illinois university with the class of 1956, joined the faculty of the Galatia Community high school Monday morning.

Mr. Morgan was employed to fill a vacancy created by the resignation of Mrs. Lyle Lee and there has been some teaching reassignments as a result.

Mrs. Lee, who resigned to join her husband, who will participate in water skiing both as an instructor and in exhibitions for tourist hotels in Ft. Lauderdale, Fla., taught music and girls' physical education.

Mrs. Jane Wickham, English instructor, has taken the girls PE classes and Mr. Morgan has been assigned to the English department. He also will assist John

Cherry, boys' physical education instructor and athletic director.

At present there is no music instructor, but the band and chorus will continue to practice, without an instructor, but supervised by some member of the faculty.

Mr. Morgan, who played basketball 10th at Carbondale Community high school and at SIU, was commissioned as a second lieutenant in the Air Force at the time of graduation from SIU and expects to be called to active duty in December.

Jack Large, principal at Galatia high school, stated Monday it was the hope of school officials that vacancies on the faculty would be filled with fall term graduates from SIU.

## Richards Signs New Contract to Manage Orioles

By United Press  
Paul Richards received a vote  
of confidence for a "job well done"  
today but to the Baltimore Orioles  
field and general manager "it's  
only half done."

"It's great to receive a new con-  
tract," said the 47 year old Texan.  
"But I won't be satisfied until I  
give Baltimore fans a winner."

The Orioles finished sixth—28  
games behind the American league  
champion New York Yankees—last  
season but were rated the most  
improved team in the circuit by  
no less an authority than Casey  
Stengel. It was a tribute to Rich-  
ards—whose three-year blueprint  
for the Orioles' success seemed  
hopelessly bogged down in 1955.

Richards' new contract extends  
through 1959 and is estimated to  
call for more than \$50,000 a year.

## Bull Pups Lose, 67-0, to Exceptional Centralia Team

The Harrisburg Bull Pups ran  
into a most exceptional freshman-  
sophomore football team at Cen-  
tralia last night and were blanked,  
67 to 0.

The Centralia crew, a team of  
excellent blockers, tacklers and  
runners, started their spree when  
"teptoe" ran the opening kickoff  
back 92 yards for a touchdown.

Jerry Kane, Harrisburg fresh-  
man backfield man, suffered a  
broken shoulder in the contest  
and it was set at Centralia.

The Centralia team had aver-  
aged 52.5 points per game before  
last night's contest, beating Flora,  
Murphysboro, Herrin and Benton.  
The Benton frosh-soph outfit scored  
the only points—6—against the  
little Orphans.

By BILL MELTON

Robert Patterson, 786 State  
street, Chester, Ill., is the winner  
of last week's "You Pick 'em."  
This is the second time Mr. Pat-  
terson has stepped into the win-  
ner's circle, having won the con-  
test for the games played Sept. 21.

In taking the championship Mr.  
Patterson picked nine of ten cor-  
rectly. The only miss was in tak-  
ing Chester over Carbondale and  
that game ended in a 19-19 tie.  
And of course, no one picked it to  
be a tie game.

Eric Hansen and Charley Nel-  
son, both of Harrisburg, took sec-  
ond place honors, with eight cor-  
rect one miss and the tie game.

For the game of the week, Car-  
mi at Eldorado, all three of the  
top pickers selected Eldorado as  
the winner, but no one was even  
close to the score.

Eldorado's decisive 41-0 wallop-  
ing of Carmi wasn't expected,  
even by the most loyal Eldorado  
supporter. Patterson predicted a  
20-7 score, Hansen said 28-14 and  
Nelson 27-14 all giving a 13 or 14  
point spread. And that was the  
way all other contestants saw the  
game. About two TDs in favor of  
neighboring Eldorado.

Eddie Quade, last week's run-  
ner-up, gave the Eagles the big-  
gest margin of anyone entering.  
Fddie predicted a 30-13 score.

"guessestimate" winners of the  
ten games listed above. Circle  
the names of the team you think  
will win each game and on the  
game of the week, predict a  
score. Then either mail or bring  
your entry to "The Daily Register"  
sports desk. It must be received  
or postmarked not later than 5 p.  
m. Friday, Oct. 19, to be eligible  
for this week's contest.

There is no entry fee and no  
prize. Just fun. Come on, get in.  
Won't be long until basketball and  
before the present grid season is  
over we will be mixing the list  
with both football and basketball  
games.

Eldorado did not have a home  
town official for Friday night's  
game. In the list of officials  
"Stillel of Eldorado" was listed,  
but it was an error. The Stillel  
mentioned was Ira Stillel, life  
long Harrisburger.

The Galatia high school basket-  
ball schedule, released today,  
shows 19 regular season games,  
one under the maximum allowed.  
School officials state they would  
like to add a 20th game to the  
schedule and any school with an  
opening and interested in playing  
Galatia should contact the school.  
Jack Large is principal and John  
Cherry athletic director.

Opening game on the schedule  
has Equality making a call at Ga-  
latia Nov. 13. Galatia will par-  
ticipate in two tourneys, the  
Greater Egyptian conference  
meet, Jan. 14-18, and the Saline  
County tourney, Jan. 25 and 26.

## Big Ten Report on Aid and Recruiting of Athletes To Ask for Rules Changes

CHICAGO (AP) — Rules changes  
to clearly define what Big Ten  
schools can do to recruit and as-  
sist athletes will be proposed to  
the conference in December as  
the result of a previously secret  
survey report on current prac-  
tices.

Though the current aids and  
policies on recruiting are "legal"  
and within present conference  
rules the amounts granted in aid  
and the methods of recruiting  
have become a matter of "con-  
cern" to conference officials.

Already one recommendation to  
restrict aid has been approved in  
principle by the conference at a  
special meeting in August. This  
will require that aid to athletes be  
given completely on a basis of  
need with "need" defined by a  
hard and fast formula and as-  
sessed by an independent agency.

The voluminous "secret report",  
which circulated to the presidents  
of conference institutions, athletic  
directors and faculty representa-  
tives, was prepared by a six-man  
committee. It was designed to be  
blunt and shocking in its presenta-  
tion of facts for study.

## Most Athletes Solicited

Some of its revelations were:  
1. All but 12 of the 258 football  
lettermen in 1955 were in contact  
with football coaches before ma-  
triculation and only six athletes  
were unsolicited. Most athletes  
visited three schools at least;  
some went to six or more. En-  
tertainment expense has become  
so great that controls became  
necessary at some institutions. At  
one school expense was \$13,500  
and 95 per cent of the prospective  
athletes receive either meals or  
lodging.

2. Alumni clubs are being or-  
ganized systematically, and there  
is reliance upon alumni to contact  
athletes and arrange campus  
visits. Prospects have become  
"shoppers." Football coaching  
staffs have been enlarged with re-  
cruitment a primary aim.

3. The conference schools are on  
an "offer" basis with aid in the  
form of work and/or unearned aid  
offered virtually every athlete.  
Subsidies have increased to stag-  
gering proportions and literal  
work-aid requirements "are being  
bent if not tortured."

4. Athletes last year received an  
average of \$260 in aid compared to  
\$47 in 1948. Football and basket-  
ball lettermen at nine schools  
averaged \$609.88 in aid. Unearned  
aid jumped more than 600 per cent  
between 1948 and 1955, from \$56,  
694 to \$348,688.

## Legislation Proposed

5. Payrolls on "make-work" by  
athletic departments average \$46,  
300 per year, four times the 1948  
payrolls. In many programs jobs

## Floyd Patterson- Archie Moore Bout Set Nov. 30

NEW YORK (AP)—Manager Gus  
D'Amato unexpectedly admitted to-  
day he had received "assurances"  
of clean officiating at Chicago be-  
fore he permitted young Floyd  
Patterson to accept the Nov. 30th  
fight with Archie Moore at Chicago  
Stadium for the vacant heavy-  
weight crown.

D'Amato's admission was unex-  
pected because promoter Jim Nor-  
ris, announcing the match in New  
York Monday night, said, "I have  
not heard anything about any as-  
surances."

D'Amato explained today, "I  
have been given assurances about  
officiating at Chicago, but I am  
not at liberty to discuss it."

The stocky, gray haired pilot  
of Brooklyn's sensational 21-year-  
old contender, had refused for  
several weeks to let Patterson  
fight 39-year-old Moore in Chi-  
cago, "because of my suspicions  
of Chicago officiating."

He stressed, "I became suspi-  
cious of the Chicago situation when  
Johnny Saxton took the welter-  
weight title from Carmen Basilio  
there on a much criticized decision  
last March."

Although terms for the 15-round-  
er have not been announced, D'  
Amato indicated Floyd and Archie  
would each receive 30 per cent  
of the net gate, TV-radio money  
and ultimate movie proceeds.  
Charley Johnston, Moore's man-  
ager, had been asking 35 per cent.

Norris Monday night predicted  
a \$400,000 gate for the bout, which  
will be televised and broadcast  
nationally to homes. There will be  
a TV blackout in the Milwaukee,  
Chicago and South Bend (Ind.)  
areas.

## Allie Reynolds

**Dismisses Report He  
Will Run for Governor**

OKLAHOMA (AP)—Allie Reynolds,  
a former New York Yankee World  
Series pitcher hero today dismis-  
sed a report he would run for gov-  
ernor of Oklahoma as "premature"  
and insisted "I have no political  
ambitions." Some of the state's  
leading Democrats have been ask-  
ing Reynolds to enter politics.

fly an effort to analyze trends."  
The committee warned that,  
should the trend continue, educa-  
tional administrators might dis-  
solve the sports program. How-  
ever, the committee found a "min-  
imum of abuse" in academic fa-  
voritism.

Under the legislation to be pro-  
posed, schools would be permitted  
to provide aid in the amount of  
board, room, books tuition and \$15  
per month, deducting whatever  
amount the student could furnish.

Such legislation also would pro-  
vide that once a student accepts  
aid from one school, he would be

come ineligible to receive aid  
from another member. Thus the  
legislation would provide for "let-  
ter of intent" restrictions on  
"shopping."
